YOUNGANDWELL CRC

THE YOUNG AND WELL CRC

A photograph of three young people (two women and one man) looking at a smartphone together. The man is in the center, holding the phone, while the two women are on either side of him, looking at the screen. They are outdoors, and the background is blurred.

Australia-based, international research centre.

75+ partner organisations.

Researchers, practitioners, policy-makers and innovators across the academic, non-for-profit, government and corporate sectors.

Working in partnership with young people.

Exploring new technologies to promote cybersafety, mental health and wellbeing.

Three research programs.

Part of the Australian Government's Cooperative Research Centres Program, tackling challenges requiring medium to long-term collaborative efforts.

CHALLENGES IN SERVICE DELIVERY

// Research Questions

- **HELP SEEKING** // Why don't young people seek help? Is user driven screening appropriate? What does online triage look like?
- **CONSUMER ENGAGEMENT**// Can young people be partners in care? What would an empowered consumer manage online?
- **COMPLIANCE TO TREATMENT**// Are social networking, gaming, digital content creation, mobile applications and virtual worlds a valid and reliable tool to enhance compliance?
- **WORKFORCE CAPACITY**// What role can technology play in rural, remote and regional communities and in vulnerable populations? How do you up skill a workforce in the use of ICT?

“It was 1.30am; I was desperate and had nowhere to turn. I somewhat sarcastically went to Google and typed in ‘help’. The Reach Out site was the first result.”

THE OPPORTUNITY

75% of mental illness emerges before age 25
(Kessler, 2005).

80% males and **70%** females aged 16 to 24 do not seek help
(Australian Bureau of Statistics, 2008, National Survey of Mental Health and Wellbeing: Summary of Results, 2007. Cat No 4326.0).

99% of young people are online daily
(Young and Well National Survey, 2012).

The combination of these factors present a unique opportunity to use technologies to enhance mental health and wellbeing.

'DOING' TECHNOLOGY WELL IS TOUGH

The role of social media in suicide

http://www.youngandwellcrc.org.au/wp-content/uploads/2014/07/Robinson_2014_Suicide-and-Social-Media_Findings-from-the-Literature-Review.pdf

OUR YOUTH BRAINS TRUST

The **Youth Brains Trust** is a group of enthusiastic and committed **young people** from around Australia, who are passionate about improving their own **wellbeing** and that of their peers.

WHY TECHNOLOGY MATTERS

Our 'real world' is both online and offline

It's how we communicate

Computers have been a part of our entire lives

Provides flexibility and confidentiality

How do we move from a focus on technology as a risk to technology as an opportunity?

According to our Youth Brains Trust

“Participatory design offers an evolving set of critical, conceptual and practical tools to support the active participation of users in the design of different systems, services and products”

Hagen et al., 2012

YOUNG PEOPLE AS PARTNERS IN RESEARCH

MYASSESSMENT

// Lets get you started!

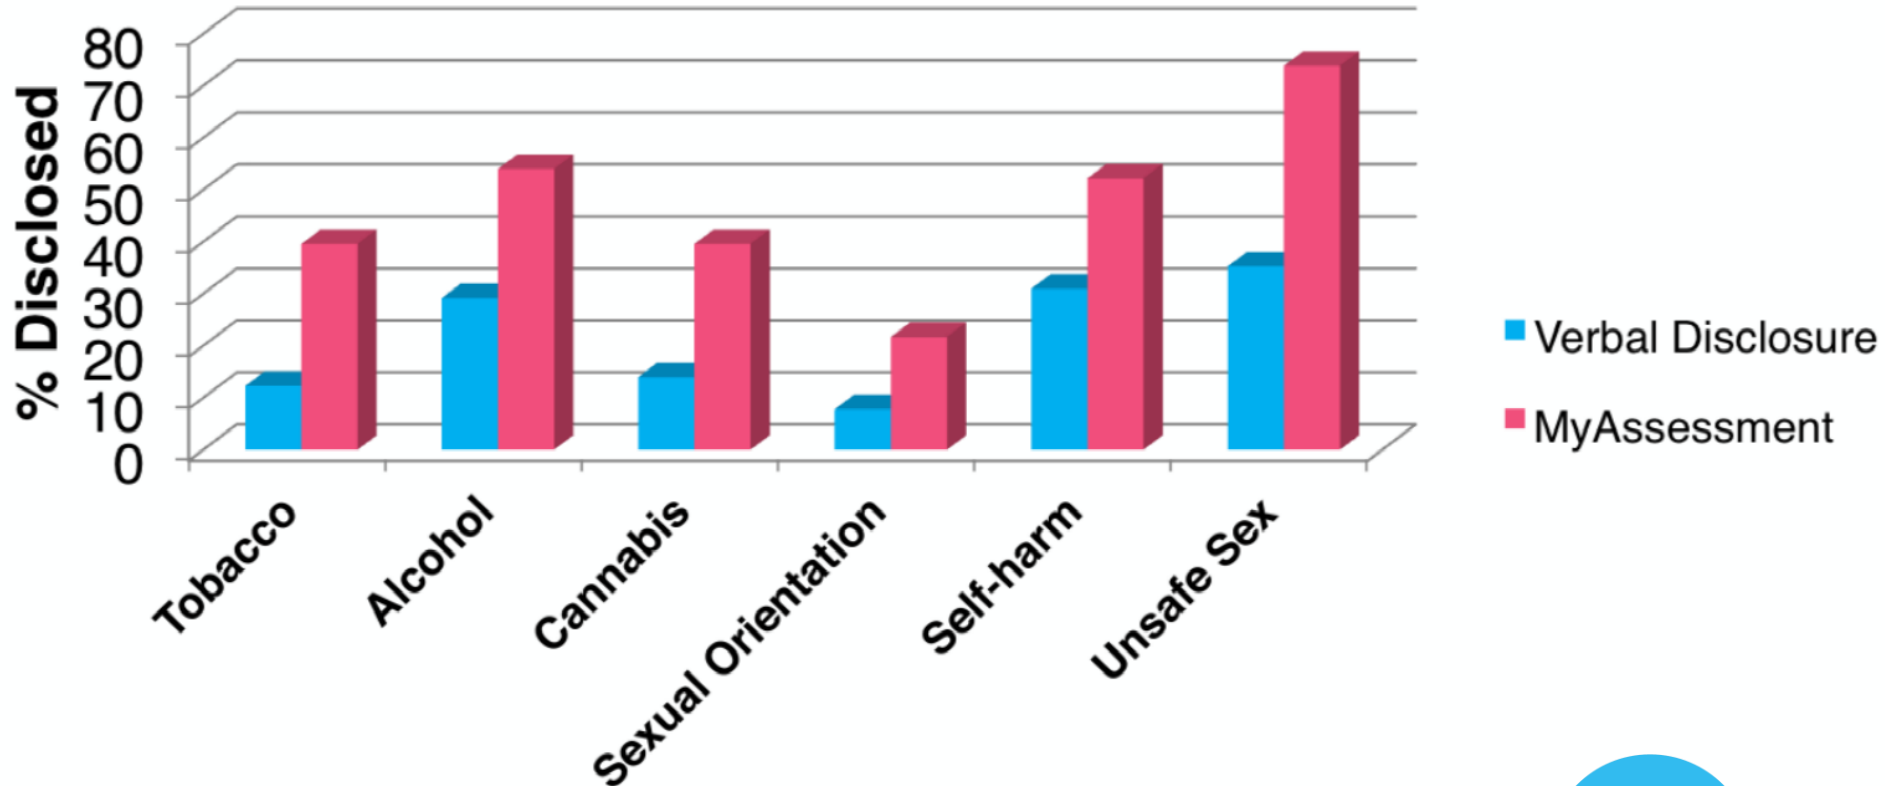

The screenshot shows a mobile application interface for 'myAssessment'. The header is green with a white arrow icon and the text 'myAssessment'. Below the header, the question reads: 'Which of the following best describes how you think of yourself in terms of your sexual preference?' with an information icon (i) to the right. The options are: 'Heterosexual/straight', 'Lesbian', 'Gay' (highlighted with a purple-to-blue gradient), 'Bisexual', 'Questioning (not sure if you are straight, gay, lesbian or bisexual)', and 'Other (please specify:)' with a text input field. At the bottom, there are navigation buttons: 'Previous' with a left arrow, '1 / 16', 'Don't want to answer' with a blue background, and 'Next' with a right arrow.

Smartphone app 1 Recharge

YOUNGANDWELL^{CRC}

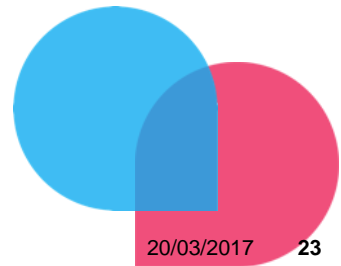

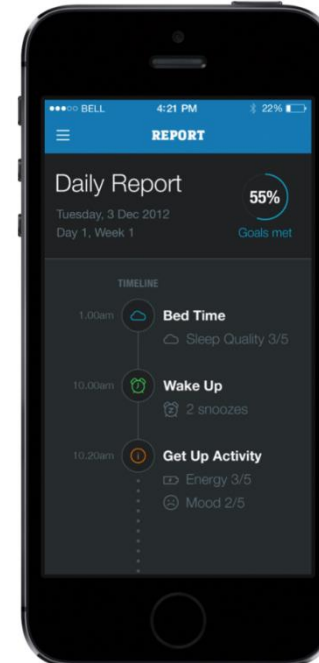

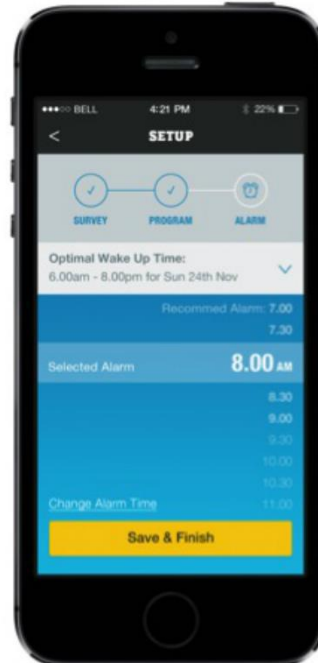

An Australian Government Initiative

YOUNG MEN'S INTERVENTION

// Can we chat about getting enough sleep and exercise?

Young Men's Intervention involves the development of a mobile phone app designed to improve young men's wellbeing by helping regulate the sleep/wake cycle through a six week program.

Recharge – Sleep Well, Be Well (free)

- A personalised six-week program that helps improve the wellbeing of young people by focusing on four key areas
 - A regular wake and sleep time each day, achieved gradually over six weeks
 - An alarm clock that triggers fun activities designed to get you up and out of bed
 - Increasing exposure to daylight early in the day, to help reset the body clock
 - Encouraging increased physical activity, especially within two hours of waking up.

By **beyondblue**

Open iTunes to buy and download apps.

[View in iTunes](#)

Description

The Check-in app was designed by beyondblue and Two Bulls in consultation with young people to help take the fear out of having a conversation with a friend who might be struggling. This is often not an easy conversation to have and the Check-in app provide building blocks for how you would approach your friend and give you a

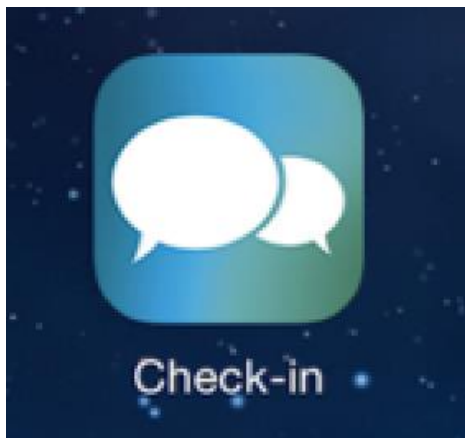

[beyondblue Web Site](#) ▶ [Youthbeyondblue The Check-in Support](#) ▶

[...More](#)

What's New in Version 1.0.12

Minor bug fixes

- developed by beyondblue
- aims to give young people the skills, knowledge and some specific strategies to have conversations with their friends about mental
- Provides a tailored, step-by-step “check-in” plan so they can systematically look after friends that they are worried about.
- allows young people to review how the conversation went
- gives ideas for what to do next, especially if things got tricky
- allows the user to set reminders to follow up,
- links to professional support and words of wisdom from people who’ve done it before

Plan your check-in

So you've got a friend who you are worried about. Knowing how to talk to them about it can be the hard part. If you feel awkward about it, that's pretty normal.

It's not always easy, but the Check-in app takes you through four steps to help you plan your conversation so you know how you are going to go about it.

APPS FOR YOUR BRAIN & BODY

Work out your goals, download the apps and track your progress

A collection of health and wellbeing apps endorsed by professionals and reviewed by people under 25

Don't know your goal ?

START QUIZ

Know your goal ?

Type your goal

eg. Increase your energy

WANT SOME INSPIRATION ?

Remanerent urbe ventum quidem paucin

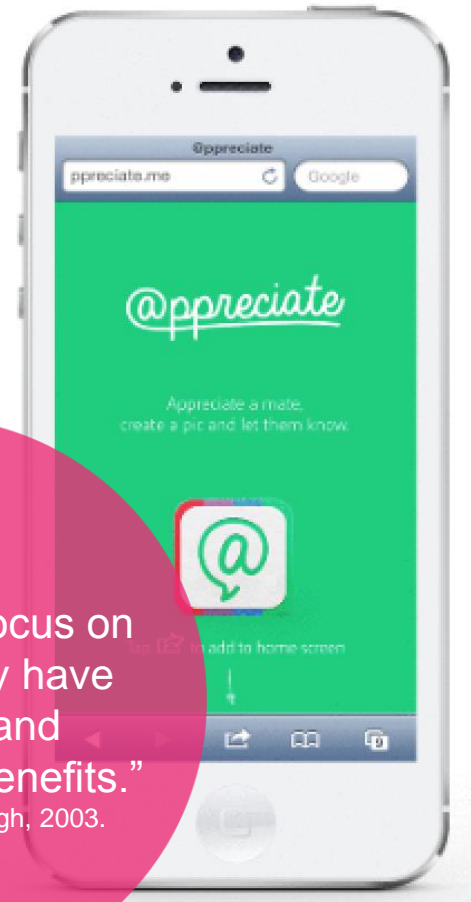

@ppreciate

Launched in July 2013, hundreds of positive compliments spread their way across websites like Facebook, Twitter, Instagram and Tumblr. The compliments were in the form of beautiful illustrated images with positive sentiments like 'Don't Ever Change,' 'Your smile makes me smile' and even 'Your face makes Facebook better.'

Since then, almost 26,000 of these images have been created and shared by young people across Australia.

"A conscious focus on blessings may have emotional and interpersonal benefits."

Emmons & McCullough, 2003.

EMENTAL HEALTH CLINIC

// Do you have a share plan?

The screenshot shows the homepage of the eMental Health Clinic. At the top left is the logo, which consists of two overlapping circles (one blue, one orange) with a white head profile inside, followed by the text "eMental Health CLINIC". To the right of the logo is a button that says "Need Help Now?". In the top right corner, there is a gear icon for settings.

The main heading is "Welcome to the eMental Health Clinic". Below this, there is a navigation menu on the left with links: "What is the eMHC?", "Is the eMHC for me?", "FAQs", "Resources", and "Help a friend".

The main content area contains three paragraphs of text:

- Not everyone can make it to see a doctor or mental health professional, or maybe you haven't reached that point, but would like some more information and assistance.
- If you feel like you're not coping well with life or experiencing difficulties with your mental health, the eMHC might be right for you.
- You'll need to login first to ensure your privacy. Then, by answering some questions you can get immediate feedback to improve your health and wellbeing.

Below the text is a "Get Started" button. To the right of the text is a video player showing a woman sitting at a desk with a laptop, with the title "E MHC FINAL".

At the bottom left, there are social media icons for Facebook, Twitter, and YouTube. The footer contains a dark grey bar with white text: "Contact Us | Site Map | Privacy | Terms and Conditions | Accessibility Mode" and "Copyright 2015 eMental Health Clinic | Young and Well Cooperative Research Centre | www.youngandwell.org.au | All Rights Reserved". On the right side of the footer, there are logos for "YOUNG AND WELL" and "UNIVERSITY OF SYDNEY".

REGISTER TODAY: School TV

School TV

Presented by Dr Michael Carr-Gregg

Dr Michael Carr-Gregg is the Managing Director of Digital Education and Training, and part of the Executive Team at the Young and Well CRC as well as lead content provider in the School TV video's.

Michael is one of Australia's most prominent child and adolescent psychologists, the author of nine best selling books and has also worked as an academic, researcher and political lobbyist. Michael supports School TV and understands the significant potential it has to act as a gateway to commencing and guiding conversations around the issues faced by parents, teachers and school principals in the digital age.

“Parents need to be alert, but not alarmed. It's about providing the knowledge and the skills they need to confidently manage their children's use of technology. Technologies have dramatically transformed our kids' relationships with one another, their families and communities.”

Michael plays a key role in leading and implementing the Young and Well CRC's digital education program both in Australia and internationally, and works to extend the reach and impact of the Young and Well CRC's initiatives through collaborating with existing partners and building new relationships.

Michael's extensive use of technology in his clinical practice for the last five years gives him particular insight into the valuable role that technology can play in the diagnosis, treatment and prevention of mental health problems in young people.

Content contributors from leading specialists

Some of the people behind School TV

Some of Australia's leading academics, specialists and authorities in youth health and well being will contribute to School TV. The latest research and practical, real-life guidance will form high value content for parents and educators alike.
